INSET STEEL

Inset Steel... Stylish, Tough and Built-to-Last

A highly chemical-resistant finish plus superior load-bearing capabilities have made Steel the material of choice for industrial labs.

Our steel casework will stand up to the challenge of years of intensive use and heavy workloads. Quality construction and perfectly fitted inset doors and drawers ensure a long life of quiet, trouble-free usage.

Inset Steel furniture system provides durable steel door and drawer fronts. Inset door and drawer fronts are positioned inside and flush with the cabinet face frame. The exposed cabinet frame provides a location to introduce a complimentary accent color at the cabinet face.

Maintenance is made simple with panels clipped on for easy removal. Inset Steel components are finished with chemical-resistant powder coating, available in 10 standard colors.

Inset steel suits all the industries.

INSET STEEL | Inspired

Specifications:-

- Heavy-duty Performance
- 1.2mm thick cold rolled mild steel sheets
- Double wall construction
- Deeper drawers
- Double corner posts at all four corners
- Stainless steel hinges
- Self closing drawers and can be locked when desired
