

One-step cleaning & disinfection

- ✓ Advanced Active Technology™
- ✓ Kind to surfaces and your skin
- ✓ Broad spectrum antimicrobial efficacy

One-step cleaning and disinfection

AZOMAX™

SPECIALLY DESIGNED FOR 'ONE-STEP' CLEANING & DISINFECTION FOR MULTI-SURFACE AND MEDICAL DEVICES

AZOMAX™ is based on a highly effective formulation of quaternary ammonium compounds (QACs), polymeric biguanide (PHMB) and surfactants, working synergistically with other ingredients to deliver a potent cleaning & disinfection solution.

AZOMAX™ is designed for use in hospitals, nursing and care homes, laboratories, dental and GP surgeries. It has become increasingly popular in non-medical areas like offices, beauty salons, nurseries and schools. It can be used on a wide range of surfaces from mattresses, bed frames, table tops, chairs, desks, commodes, ambulance stretchers, cabinets, tile surfaces, floors and many more. The range also includes wipes and sprays for disinfecting non-invasive medical devices. AZOMAX™ cleans and disinfects in one go, saving you time and money. With broad spectrum antimicrobial efficacy – clinically proven, it offers the advantage of long lasting protection, whilst being kind to your skin and surfaces cleaned.

Instructions for use

Use AZOMAX™ wipe for cleaning and disinfection. Use more than one wipe if necessary so the surface stays visibly wet, then leave to dry.

Once used, discard the wipe into appropriate waste container.

Use AZOMAX™ spray to clean – spray solution onto contaminated surface and wipe. To disinfect – spray onto the cleaned surface and wipe or leave to dry. To deodorise – spray onto contaminated surface and leave to dry.

Choose AZOMAX™

One-step cleaning and disinfection

- **99.999% effectiveness against pathogens**
validated by European Standards
e.g. EN 1276, EN 13727, EN 13624, EN 14475
- **One step cleaning and disinfection**
saves you time and money
- **Long lasting, residual efficacy**
keeps working for hours, even after it has dried out
- **Broad spectrum antimicrobial efficacy**
effective against a wide range of micro-organisms
- **Chlorine, glutaraldehyde and alcohol free**
non-tainting & non-corrosive
- **Kind to surfaces & skin friendly**
gentle on surfaces and kind to your skin
- **Non-flammable**
no specialist PPE or storage required
- **Multi-surface & medical devices wipes**
wide range of applications
- **Available in a wide range of formats**
pouches, canisters, buckets and sprays

Ensure the surface or a piece of equipment is clean prior to disinfection. Do not use one wipe on more than one piece of equipment. Do not mix with any other chemicals. Keep the canister/spray bottle/bucket closed. Store in a cool, dry place. Avoid direct contact with sunlight. Use biocides safely. Always read the label and product information before use.
